

# Color Sorting Game

PROBLEM SOLVING | Ages 24-36 months | 15 minutes

---

## About This Activity

Sort objects by color to develop categorization, color recognition, and cognitive skills.

## Materials Needed

- colored bowls
- colorful objects
- pom poms

## Step-by-Step Instructions

Set up colored bowls or mats (red, blue, yellow, green). Gather toys, blocks, or pom-poms in matching colors. Ask child to sort them by color: 'Can you put all the red ones here?' Name colors as you go. This teaches color recognition, categorization, and sorting skills. 15 minutes.

## Developmental Benefits

COGNITIVE, FINE MOTOR
